Artificial Intelligence

HELP US ENVISION THE FUTURE

The All-Party Parliamentary Group on Artificial Intelligence (APPG AI) is a cross-party group in the UK Parliament, sitting across both the House of Commons and the House of Lords. It was set up January 2017 by Stephen Metcalfe, Lord Clement-Jones, and the Secretariat Big Innovation Centre to explore the impact and implications of Artificial Intelligence.

You can find more information about the group here:
www.appg-ai.org

We have realised that technologies like AI are massively transforming all of our lives, and we would like your help to visualise what our futures will and *should* look like.

Please carefully read the next page with instructions for how you can participate.

All Party Parliamentary Group on Artificial Intelligence

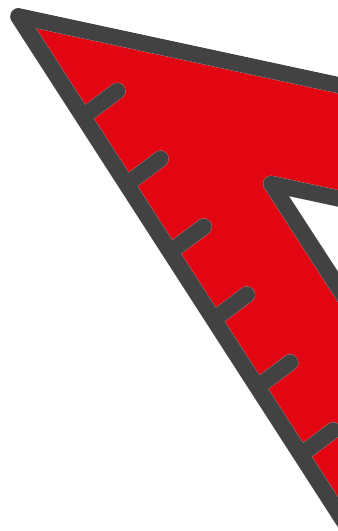

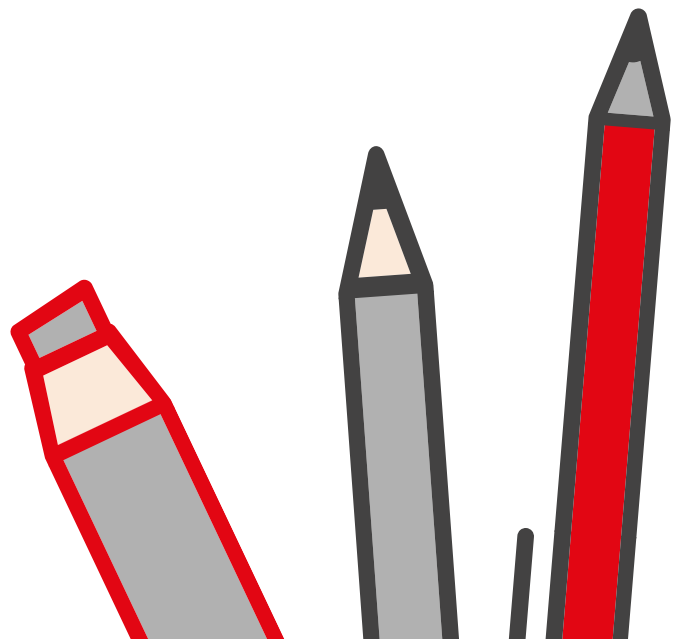

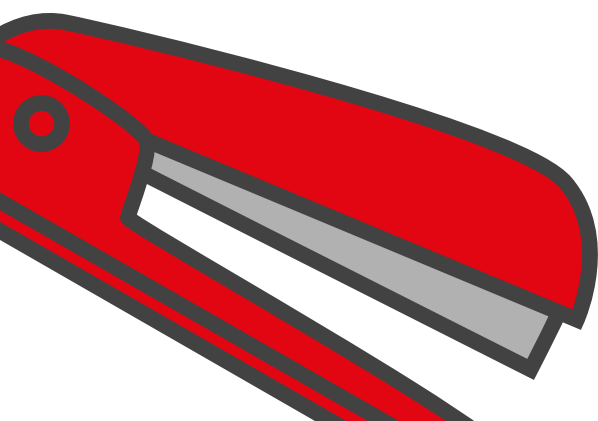

HELP US ENVISION THE FUTURE

1. Take a couple of minutes to think about how technology like Artificial Intelligence is changing our lives. The future is yours. Imagine what your future will and **should** look like in ten years.
2. Read the questions on Page 1 and Page 2 (attached), and create your future in the allocated space. You can draw, make a collage, write, or anything else you want. Use colours! Be creative! Make sure to include your name, your age, and your school.
3. Submit your drawings to your teacher by _____ and ask him/her to mail it to:
ATTN: Niki Iliadis
Big Innovation Centre
8th Floor Penthouse, 20 Victoria Street
London SW1H 0NF
4. We will collect the artwork and exhibit them at UK Parliament so our community can realise how YOU picture YOUR future.
5. The APPG AI Advisory Board will choose the three best submissions and the winners will receive a **surprise** prize. All students will receive Certificates, on behalf of the APPG AI, for their participation.

For any questions, please contact: n.iliadis@biginnovationcentre.com
